

# Jacking Units JAG Series

Load Rating 300kg

Introducing the JAG Series Jacking Unit – Brauer has designed and developed another jacking unit to add to our range. A robust and versatile solution designed to meet your lifting needs with a load rating of 300kg, ensuring reliable performance for lighter/ medium duty tasks. Engineered with precision and built to last, this jacking unit is perfect for a variety of applications, from industrial settings to commercial use. Its adaptable design makes it suitable for various environments.

The unit is equipped with advanced mechanisms to ensure smooth and efficient lifting and lowering. Additionally, it includes built-in safety measures to prevent accidents and ensure secure operation.

Whether you're looking to lift heavy equipment, align machinery, or perform maintenance tasks, our JAG Series Jacking Unit is your go-to solution for dependable and efficient performance.

Our new jacking unit fits at the start of the range, increasing up to the JWG series at 2,500kg.
